

model	Nautilus	qty	price (R)
-------	----------	-----	-----------

 <p><b>Nautilus</b></p>	<p>Now recognised as a design classic, the original Bowers &amp; Wilkins Nautilus™ is not just our flagship product, but the very pinnacle of technological innovation to which all others must aspire. It is the result of a groundbreaking, five year research and development programme to achieve, as near as possible, the perfect loudspeaker. The Bowers &amp; Wilkins Nautilus is recognised worldwide as an outstanding loudspeaker which continues to shape the direction of the audio industry to this day. Much sought after by cognoscenti, it has been unashamedly designed with the serious audiophile in mind, not only because of its size and shape but also because of its active design – the crossover network is positioned between the pre and power amplifiers.</p>	pair	999 990,00
